Activities

- Walking
- Trad Climbing
- MTB

Available spaces: Unlimited

Accommodation type: Camping

Meet details

This is a Sat to Wed meet, but of course you can stay for longer if you want. The plan is to camp at the North Inn (pub) campsite, again this year, in the village of Pendeen which is between the crags of Bosigran and Sennen Cove and Lands End is just a few miles further on. There is no advanced booking so its first come first served, it has Showers and toilets and hot & cold water for the outside wash-up area. If full there is another much bigger campsite less than a mile away. The village also has a small Costcutter shop and a chippy which also does Breakfasts from 7am. What more could you ask for?

This is trad climbing on Granite seacliffs. Some crags are tidal and abseiling into may also be required for some.

The relevant Guidebooks are either the:

CC's Definitive guide, Cornwall Bosigran and North Coast Volume 1 ISBN '978-0-901601-99-5, or Rockfax West Country Climbs ISBN '978-1-873341-37-7. This only has selected routes but covers a bigger area.

It is an approx 300 mile journey (5-7 hours) so quite expensive on fuel so please contact me if you can offer a lift or would like one.

The Cornwall Coastal path is just a stones throw away and Lands End is just a short drive. The Geevor Tin Mine Museum is also nearby. As well as the North Inn, within a mile there are also two pubs which serve food.

On the Saturday the tides are: Low - 10:06. High - 16:06. Then getting later by about 40 mins per day.

Map: Campsite is situated behind the North Inn Pub indicated by the green Tent. There are other campsites as indicated by flags
